

Agenda-Hall XI

1. **Mailing Rights:** The HEC members in Hall XI are not allowed to mail directly to the residents. They have to send mail to Warden Incharge who then circulates the mail to hall residents. This is against the democratic norms and we want to have our rights to mail directly to residents.
2. **Hall Accounts:** In Hall XI, during the election that was held in Sept. 2018, the post of Accounts Secretary was taken away and now we don't have any concerned member who should be taking care of hall accounts and who will bring transparency in hall accounts. We need as much transparency in hall accounts as possible so that resident/residents having any question will be entertained.
3. **Constitution:** Hall XI is there from last 5 years and still it doesn't have the constitution of its own or adopted for that matter. We want to establish a constitution in Hall XI as early as possible to let the residents enjoy their democratic rights as per hall constitution.
4. **Malpractice in Election:** During this years election in Hall XI, many rules including eligibility criteria were changed and election was conducted in hurry. This was brought in notice to election commission and a postponement in election was demanded but unfortunately, election commission didn't responded. We want it to make us clear what is the role of election commission during election and how the intervention of any external authority including Wardens could be dwindled.
