Hall Presidents to allow guests in emergency

It has occurred several times when a guest needs to be allowed entry in the hall at odd hours. It is extremely inconvenient to contact Wardens in such cases. We request that Hall President should be granted enough power to allow guests inside the hall in case of an emergency.

Lack of sanitation workers in GH-1

There is shortage of sanitation workers in GH-1 leading to unhygienic conditions inside the hall premises and further affecting the health of hall residents. The reason cited for the same is the lack of required funds.

We request other halls to suggest as to how this matter can be resolved. They may kindly share the models followed in their respective halls.
