

Manifesto of Deepali Gupta

Contesting for the post of Senator UGY14

Proposed by: Piyush Rai

Seconded by: Tushar Chauhan, Jatin Agarwal.

Vision:

I want to make a valuable contribution to the smooth functioning of our institute and ensure that each resident of the campus gets the best out of the facilities provided to them. I want to be the medium through which change is facilitated and executed with minimal setbacks.

Mission:

1. Department Placement Coordinators are currently selected via interviews conducted by the Student's Placement Office. This process does not ensure answerability of the DPCs to the Senate. If elected, I would like to propose through the Students' Placement Office (SPO) to make the DPCs more accountable and increase their reachability so that the students can directly approach them. I think this would also ensure that number of relevant firms of all departments coming for recruitment increase.
2. Library timings on Sunday are very short. This is an inconvenience for many students. I would like to propose that the Senate Library Committee (SLC) student nominee takes this agenda in the SLC and puts forward a proposal to increase the workforce in the library.
3. I would like to propose online booking of VH and VH Extension which would be centralized on one portal and extended to the halls. This matter was brought up in the last Senate Meeting too and the outcome was that it would take time. I would like to propose that the process be sped up by introducing some competitions and projects through relevant associations like the ACA so that a concerned team be formed and work on this project starts as soon as possible.

4. I would also like to propose in the senate that an OAT Parking shed and ramp be made in front of the New SAC and the Hockey and Football ground to facilitate the convenience of parking which currently is disorganized to the point of being chaotic.
5. I would like to propose the setting up of an optician centre and a watch-repair shop in the new Shop C for the convenience of all the residents.
6. I would like to propose in the senate that the menu of the canteen adjacent to CCD be changed so that it comprises of holistically nutritious items that can substitute for breakfast as a lot of people miss it and this is their only recourse.
7. I would like to propose the increase in the number of female SIS guards during festivals for the greater safety of the sudden upsurge of female population during these festivals.
