For all events, the First, Second, Third, Fourth and Fifth positions shall attract points in the ratio of 1.0, 0.50, 0.30, 0.15 and 0.05 respectively.

Academics:

A committee was formed following the recommendations of the Post-Conduction Report of General Championship 2014-15. The committee deliberated upon its mandate and found that there is no effective formula to inculcate the Post graduate students in the event. The UG students should not be only considered in the calculation of the results. Additionally, the current formula does not account for the variance in the Samples. Hence the committee recommended that the Academics in its present format should be removed from General Championship 2015-16. There needs to be a proper analysis on how the current structure can be modified to inculcate the Post Graduate students in the competition.

Recommendations:

1. Green Opus and Academics in their present form do not give perfect results. Hence there needs to be a proper restructured model on how we could inculcate both of the events in GC. Additionally, with new Cells recently introduced in the Students' Gymkhana, it is highly recommended to form a committee which would come up with a proposal for General Championship 2016-17
2. Mélange should be an Events-Only Festival and it should act as a platform for all the clubs and hobby groups who do not get any chance throughout the year to showcase their talent.
3. In its present format, the Championship is not inclusive for the new pool Veeras. Hence the committee should also deliberate on how to make GC more inclusive for Veeras.
4. In consultation with all the other pools, it is recommended that the scores of Rajputs should be extrapolated according to their points in the events other than the Galaxy.
