Dear Samyak,

I have sent the mail before 12PM. But i fear it has not reached you. So i am sending you one more mail. Please consider it

Dear Samyak,

We the residents of hall 11 propose the following agendas for the COSHA meeting:

1)Water quality is the utmost concern for every human and the quality is too low in hall X1. It is common that students are experiencing pollutants and saltness so there is urgent need of centralized RO Water Facility in the Hostel.

2)The charge Rs. 500 per month for having cooler is too much, when have paid already Rs. 150 for electricity charge, Rs. 300 supplementary charge in the summer registration. If Rs. 500 per month is charged for having just one cooler then it become an enormous burden. The students mostly use them at night because for most of the time they go to library, labs etc.

3)There should be one Air compressor as around 700 students deeply suffered to fill air in their bicycle.

4)Hall-XI's mess should restart in a week or two.

5)As the present hostel committee is not formed through election. There should be an election within 2-3 months or earliest for Hall-X1.

6)Cooler system in Hall-XI common room and TV room.

7)SOFA Set should be in the reading room where students can sit and read news papers

8)Sufficient furniture should be provided in the canteen.

9)The caps of bulbs of the hostel boundary lightning are missing those should be put on all the pillars. Many corridor lights in the hostel are not working, those should be repaired.

10)Some hostel official should be assigned to check and ensure the proper functioning of bathrooms/toilets(door, shower, tap, cleaning etc) at least twice a week as it has not been done in a proper fashion.

11) Cooler system should be installed in the guest rooms.

Thanks,
