CHE

DEPT

## **Goals to be achieved as DUGC Nominee**

To provide students adequate information about opting for minor in different courses, necessary courses for minor in that department and to guide them through the minor procedure so that they do not face any difficulties.

I will try to reschedule few courses in 3rd and 2nd year so that it becomes easier for students to opt for minor in different courses.

I will address to students problems as soon as possible. I will raise students opinions and problems in committee and if possible get approval of them.

## **MOTIVATION:**

We were told that we will be offered minor in different departments but now in third year, due to time table clashes, lab clashes and pre requisit problems it is very difficult to get interested minor. So I decided to apply

for the post so that i can bring changes in the department.
