Vision

As a Senator of UG-Y13, my primary aim would be to represent the opinion of student body of Y-13 in the senate. I foresee an environment where students see their opinion, wishes fulfilled and that they are provided with their all the basic amenities at the institute level. To improvise the facilities, improvise the system and its coordination level. I would always try to uphold the integrity of the institution and try to maintain its status. To improve the transparency of the senate system, increase academic environment so as to relieve the pressure. All the work of senate should be properly done and attended to so that the quality status and the efficiency of honourable Senate is maintained.
