## I. Summary

The task of hostel allocation has been assigned to the Students' Gymkhana for the year 2013-14. In this policy document the same has been proposed.

## Basis of Policy

The policy has been guided by several ideas.

- Minimum movement of the current occupants
- Passing out batch remains together
- If pairing has to take place, then the $1^{\text {st }}$ year batches will be paired first and later the older batches
- If rooms were to be paired up then the hall capacity and resources should be kept in mind because facilities provided in the halls like messing and sanitation facility are not designed for more than their sanctioned/normal strength
- UG students usually exhaust the sanction strength
- PG intake has been phenomenally lower than sanctioned strength
- Girls Intake can be more than that of last year
- Hall 1,4, 9, 7 and 8 have no scope for pairing up the students (can be checked if required)
- Hall 2 and 3 have all doubles rooms.

The intake assumptions have been assumed accordingly
The policy for UG students is mainly guided by the much needed renaissance in junior senior interaction. Keeping in mind the unfortunate incidents that took place in past as well as the declining vibrancy of culture within the student community, it was felt that we stick to the basics and follow the already existing policy.

Hence it is proposed that the first, second and the third year UG students be kept together in the Halls of residence, as the vertical (inter-batch) interaction is very important and much needed. First year BT/BS students will not be kept in a single room accommodation

The policy of the PG Students is carried out on a based on Departmental-Distribution. This part of the allocation is specifically carried out in assistance with the Counseling Service.

## II. Assumptions

Few assumptions are being made while formulating the policy as mentioned below:

- All VLFM rooms in hall 11 are handed over
- GH2 will be evacuated and Old RA and 1 block of New RA will be provided for girls' accommodation.
- All Y9 (UG) and earlier students will graduate
- No PhD graduation
- The degree extended students will be given separate accommodation like faculty apartments, VH extension and type quarters
- All Y12 (MT) students graduate this year or will have to leave Hall premises before June Last week. They can be accommodated in Hall 11 (if space available) in crunch or Type 5.

## III. Proposed Intake

## Undergraduate Students:

| Program | Proposed Intake(2013-14) | Intake Last Year(2012-13) |
| :---: | :---: | :---: |
| BT | 691 | 691 |
| BS | 143 | 143 |
| Total | 834 | 834 |

Plus the pre students who will get the admission along ~14
Break Up for Boys and Girls:

$$
\text { Boys }=760 \quad \text { Girls }=84
$$

1) As per the recommendation of ARC and subsequent acceptance by Senate, the admission through JEE for all UG students will be to the BTech/BS programmes. The seats of BT-MT Dual degree (from 2010-11) are merged with those of BT. All seats of M.Sc. Integrated programme (from 2010-11) have been converted to B.S. These include candidates who may later change to the Dual degree BS-MS programme.
2) A student in the $B T / B S$ programme may apply for a double major at the end of the $5^{\text {th }}$ semester.
3) A student in the $B T / B S$ programme can opt for an $M T e c h / M S / M B A$ programme anytime between III semesters to initial part of VII semester.
4) Students in the $B T / B S$ programme may apply for $B T$ in Engineering Science as per the existing Branch Change Rules
