

EPOSTER CHALLENGE

Pool Event

Points: 20

All pool captains need to submit a digital poster on the given theme to takneek2015@gmail.com by 3rd September 2015 23:59 hrs.

Theme: "Green Footprints"

The poster should focus on methods for lessening our impact on the environment and our natural resources, thereby (metaphorically speaking) "walking with green footprints". It can even be a collage of various topics that come under this, say: Carbon Footprints, Energy Efficiency and Renewable Energy, and etc. It can be a concept which you envision. You are free to whack your brains and create any innovative solution for the future.

Rules:

Poster must be of A3 size. Direct copy of an image or poster from the internet is not allowed. If the plagiarism is caught, the pool will be disqualified. All image manipulation software are allowed.

Entries must incorporate a brief explanation of the poster's content.

We discourage entries with words. Posters with words will not be immediately disqualified, but in some cases the words will make the poster unusable. Please tell students to not write Green Footprints on the poster.

All 4 posters will be uploaded on the SnT Facebook page on 4th September 2015.

The poster must have 350 FB likes in order to be eligible for judging. The likes would be counted till 6th September 2015, 11:59 A.M. The judging criteria will be as follows:

Concept behind the poster : 50%

Aesthetics (How good it looks) : 30%

Explanation of the content : 20%

Bonus for Creativity : +15%
