

MANIFESTO

ABHISHEK JAIN

11026

DUGC Student Nominee (MSE)

Introduction and Vision

I am Abhishek Jain (11026) contesting for the post of **DUGC Student Nominee, MSE** department.

IIT Kanpur is one of the finest institutes of education in Science and Technology in our Country with best faculty, competent students and world class laboratories. As a part of this institute, I feel extremely delighted to have access to the wonderful opportunities this institute offers but due to lack of interaction between professors and student community and lack towards the reach of proper information, the students these days are not able to realize the full potential of the department. To put forth the views of student community and bridge the gap between the students and faculty, I would like to be the DUGC Student Nominee for MSE department.

Mission

If elected, then during my tenure, apart from representing student community, my work would follow following lines:

- Organizing sessions to provide proper information and interaction with professors and department seniors regarding internships for second and third year students.
- Availability of marks to students used for grading the course at the end of the semester and proper reach of students to professors and solution to their problem in case of any query.
- Arranging one to one meeting of students with professors in case of weak students facing difficulty with the course and providing the student with proper solution.
- To bring out and make rules and regulations available to whole student community regarding Dual Major in MSE department as soon as possible.
- Constructing the possibility of starting the departmental trips again so as to provide industrial exposure to students.

Credentials

- Executive, Show Management, Antaragni'13
- Institute Squash Team member
- Team Mentor and active member of Alumni Contact Program (ACP) for the spring term of 2012-13
