The recommendation to the upcoming office will be to clear off those disparities, moreover a document can be prepared which may include some motivation/reason for some constitutional changes which will be extremely beneficial for new members to get understanding.
- Conduct of Senate- It has been observed multiple times that the conduct and the basic sanity of senate was disturbed. These kind of incidences leads to inefficient working of senate moreover multiple senate members even starts to refrain from rational discussion. The RPC of upcoming tenure should formulate more strict and clear rules related to code of conduct which is to be followed during senate meetings.
