

IITKMUN ' 15
16th -18th October 2015
Pre Conduction Report

Model United Nations, also known as Model UN or MUN, is an extra-curricular activity in which students typically role play delegates to the United Nations and simulate UN committees. MUN is an event that has high degrees of professionalism which is conducted at the college level all over the world. MUN is an exercise in research, public speaking, and teamwork. These are skills that one needs throughout their career, and MUN gives a chance to practice them while one is a student. Antaragni'15 in association with Debate and Discussion Society, IIT Kanpur is providing a professional and quality platform for the students in the country to discuss such important global issues.

We have made an effort to increase the level of IITKMUN by maintaining the level of professionalism required for such an intellectual event, which otherwise was impossible to have during the festival.
