

## Manifesto for the Post of DPGC Student Nominee Student Gymkhana Election, 2013

**JITENDRA K KATIYAR (12105168)**  
**PhD Scholar Mechanical Engineering**

**Room No.: C-301 Hall-8**

**Mobile: +91 8090113301**

**Email: [jkatiyar@iitk.ac.in](mailto:jkatiyar@iitk.ac.in)**

**I am contesting for the post of DPGC Student Nominee.**

### **Why me?**

I am a passionate student for the development of better relations between the Department and Students. I can present the problems strongly in front of DPGC for the betterment of the student. I can give my best possible efforts for the student's issues as I have been a M.Tech. Scholar earlier in the year 2008-2010 and now I am pursuing my Ph.D., so I know the rules and regulations of the institute and department both.

### **If I will be elected, my aim will be:**

- I would try to bridge-up the gap between the department and students.
- I would try to present the problems related to the students in a simple and lucid manner in-front of the DPGC.
- I would try to make the process of TA and course allocation simpler and fair.
- Allotment and change of Supervisor is a point of major concern, which I would like to make student-friendly.
- By the permission of the DPGC, there can be changes in the comprehension board.
- I would like to present the termination cases of student's in-front of the DPGC fairly, keeping in mind the various situations which lead to the poor performance of the student.
- Semester leave, Semester drop & Academic extensions provisions needs some revision, which I would like to work upon a bit.

### **What you have to do?**

**Just VOTE for me....**

My plan for this session would be in the development of better relation between student and department. Also my commitment to the student body is to solve the problems within structures. Make me your choice as DPGC Student Nominee of Mechanical Engineering Department, because I understand how much your opinion matters. Because behind that opinion is a student that demands representation and behind that representation should be one unified leader. I have the quality to handle this job and can work well with all faculty members, driving this concert to success.

***Thank You.***
