

## Manifesto

Hi, I am Jitesh Damani, a fourth year undergraduate of the Electrical Engineering department. I wish to contest for the post of Member, DUGC- Electrical Engineering.

Being a student representative, my basic responsibility is to put forth the collective views of the departmental student community in the DUGC on any academic matter. At the same time, it is also my duty to keep informing the students regarding the various matters discussed in the DUGC. In other words, I will try to act as conveyer of information between the DUGC and the students community.

If I am elected as a member of DUGC, I will serve as a link between the faculty and the undergraduate students of the department. I will raise the various concerns of the students during DUGC meetings.

Faculty student interaction events always help in making bonding between professors and students. It also opens new avenues for students through knowledge enriched discussions, new seeding thoughts, invaluable sharing of experiences or precious advises. So I pledge to motivate this Faculty student interaction by routine happy hours, informal talks, etc.

We need to promote the culture of learning, programming, in short acquiring market essential skills. For this, we should have workshops and lectures on related topics directly promoted and arranged by the department

I will encourage the people who are interested in Electrical Engineering but lost their interest due to some trivial reason, I will insure a healthy environment of research in Electrical Engineering field by proposing various activities like guest lectures and conferences which can be conducted by professors.

I sincerely request you to consider my candidature for the post of Member, DUGC- Electrical Engineering.
