

Manifesto

Hi, I am Kevin Valson Jacob, a fourth year undergrad of the Physics department. I wish to contest for the post of Member, DUGC-Physics.

If I am elected as a member of DUGC, I will serve as a link between the faculty and the undergraduate students of the department. I will raise the various concerns of the students during DUGC meetings.

I have been serving as a student member of the DUGC for the past academic year. During this period, I have conducted a survey among Y11 and Y12 students of the department about the newly introduced B.S. program and on the new ARC regulations regarding minors and dual majors. Through this and other events, I have developed an interaction network among the faculty and students of the department which could be put to good use if I am elected.

I sincerely request you to consider my candidature for the post of Member, DUGC-Physics.
