

PRAVEEN HONHAR, CONTESTING FOR THE POST STUDENT NOMINEE IN DUGC, DEPARTMENT OF AEROSPACE ENGINEERING

MISSION AND VISION

The DUGC, Department of Aerospace Engineering has been running for quite some time now without participation from student nominees in it. Therefore, there has been some distance especially pertaining to the dissemination of information between the DUGC and the students. I shall look forward to bridge this gap while trying to secure more student interests in the department.

Relevant Credentials:

- 1) Senator, Students' Senate Y12 Batch 2012-2013**
- 2) Senator, Students' Senate Y12 Batch 2013-PRESENT**
- 3) Students' Senate Nominee, Under Graduate, Students Academic Committee**

If I am elected I shall work towards the following goals:

- 1)** Several important agenda pertaining to the academics are discussed in DUGC. I shall not only express the popular opinion of the students in such matters, but also see that the students are well aware of the important decisions taken in these meetings.
- 2)** I shall collect and review student opinion on matters such as time-table clashes, course restructuring, course evaluation and credits etc as and when they are discussed in the DUGC so that students have a say in these matters.
- 3)** Many recent academic reforms are taking place such as minor courses and double majors are also expected to be offered soon. In all such matters the SUGC usually consults the DUGC's of all departments for their opinions. Being a part of these discussions I will try to secure the interests of the students.
- 4)** Lastly in the cases where the program of a student is terminated by the department, or in cases of appeals against the termination, the Senate considers the opinions of both the SUGC and DUGC of that student. I would definitely try to secure the interests of these students especially because many a time they have a genuine reason for their fate.
