

## Manifesto

Hi, I am Anuraag Pandey, a fourth year undergrad of the Electrical Engineering department. I wish to contest for the post of Member, DUGC- Electrical Engineering.

If I am elected as a member of DUGC, I will serve as a link between the faculty and the undergraduate students of the department. I will raise the various concerns of the students during DUGC meetings. I will develop an interaction network among the faculty and students of the department which could be put to good use.

In Electrical Engineering, every day we see a new technology, a new concept, a new idea surfacing out and to make us more competent and well versed, we need to be keep ourselves updated. Also we need to promote the culture of learning, programming, in short acquiring market essential skills. For this, we should have workshops and lectures on related topics directly promoted and arranged by the department, which has not been seen in adequate numbers.

As a student nominee in the Departmental Undergraduate Committee, I would like to promote the creation of such an academic environment in our department, where we can improvise the best possible opportunities to create a competitive yet a learning atmosphere. I see a department wherein students can challenge themselves in the area of their interest, hone their skills, learn and thereby touch the horizon of success in their respective fields.

I sincerely request you to consider my candidature for the post of Member, DUGC- Electrical Engineering.
