

## To discuss the security issue

Proposed by: Aayushi Bansal, Convener, CoSHA

In the 1st meeting of CoSHA 2018-19, several concerns were raised by hall presidents.

Few of them are :

1. Hall 8 back gate is currently being used for transfer of mess commodities without any guard being deployed there for the same.
2. No uniform policy followed for entry of girls in boys' hostel.
3. Lack of information with students and guards about any change in security guidelines.
- 4.

The council suggested few methods to deal with the same:

1. Whenever a change in security guideline is planned, it should be discussed with hall representatives along with Warden In Charge.
2. There should be one common guiding document whose hard copy is to be kept at all halls of residence.
3. There should be proper communication to all the students if any change in security guidelines is implemented.

I propose to extend this to overall security guidelines of the campus apart from halls. Lastly, a sensitization programme was opined upon in the meeting for both security guards and students.
