

Ultimate Frisbee Hobby Group

About the Sport:

The sport is called “Ultimate” because it is considered to be the ultimate sport.

“Who gets more air than a basketball player, more floor than a rugby player and pulls at every tournament?”

That’s an Ultimate Player.”

It is an exciting, non-contact team sport played with a flying disc (Frisbee) by thousands all over the world in Open, Mixed and Women’s teams. Ultimate is a fast-paced game, demanding its players to develop razor sharp throwing skills and immense stamina and agility. Ultimate is recognized by the IOC (International Olympic Committee) as the only self-officiating sport.

The basic aim of the game is to score a goal by catching the Frisbee in the opponent team’s end zone after passing among each other and avoiding the opponent team members who’re trying to get the possession.

Vision:

Ultimate is rapidly growing in the western countries and several regions of India are also following suit. It has been played in IITK since a few years by some people. The vision of this Hobby Group is take this sport to more people and build a community of Ultimate players to enjoy this amazing sport.

In India, Ultimate is mostly played as a mixed team of men and women to promote gender equality. Ultimate can become an icon for gender equality in sports at IITK too.

Mission:

Our primary aim is to develop and maintain a culture of Ultimate in the campus. We will popularize the sport in the campus and add more people to existing Ultimate community. This would be done through workshops and playing cum-learning-sessions.

Later on, when we successfully create an environment of Ultimate, we aim to form an Institute team and participate in competitions in India.
