Recommendations

- The competition details/problem statement should be released at least 10 days before the actual commencement of the championship
- The quality of participation in Spectrum'15 was not up to the mark and should be given special focus. The number of events can be reduced if required for the same
- The competitions should focus more on the practical aspects of the field rather than just assigning the laborious work to the participants
- More competitions based on mass participation should be introduced so as to increase the overall feel of the participants towards the championship
- Pool Rajputs didn't participate even in 10% of the total number of events in Spectrum'15 sighting the reason that "They cannot win the General Championship anyhow". Such Reasons violate the spirit of General championship hence care should be taken in future years to avoid such situations
